

## QUESTIONS AND ANSWERS

PROJECT #09-38

WELDING MACHINES

**Date:** June 8, 2009  
**To:** All Prospective Respondents  
**From:** Houston Community College, Procurement Operations  
**Subject:** Informational Letter #1 – Invitation for Bids for Welding Machines,  
(Project # 09-38)

The following written questions regarding subject IFB were received in the Procurement Operations Department prior to the deadline for submitting written inquiries.

### **Question #1**

Are you wanting power source only regarding the Miller Syncrowave 250DX, or want pricing on Syncrowave 250DX Tigrunner, or the Syncrowave 250DX Complete Package?

### **HCC Answer**

Yes. Provide pricing on Miller Part # 951117, Syncrowave 250DX Complete 200/230/460 VAC; 50/60HZ and Miller Part # 901348 Mark VIII-2 230/460/575 V; 60HZ (see Amendment No. 001).

### **Question #2**

What is the required voltage on the power sources?

### **HCC Answer**

Refer to revised Attachment No. 2 dated June 8, 2009.

### **Question #3**

Is there an available forklift to move the old equipment to the staging area and move the new equipment into the installation area?

### **HCC Answer**

No, the awarded Supplier will be required to provide the necessary material handling equipment.

**Question #4**

Is the installation area on the ground floor of the building?

**HCC Answer**

Yes

**Question #5**

Is there a large door opening to enter the building?

**HCC Answer**

Yes, there is a twenty (20) foot roll-up door ten (10) feet high.

**Question #6**

Are there corners to go around getting to the installation area?

**HCC Answer**

Yes, there is one sharp right turn.

**Question #7**

Approximately how far is the delivery area from the installation area?

**HCC Answer**

It is approximately 60 feet.
